Obed Asante

Full Stack Developer

P: 780 233 3317 **E:** obed.o.asante@gmail.com **Ln:** https://www.linkedin.com/in/obedasante
Location: Edmonton, AB, Canada

PROFESSIONAL SUMMARY

Senior Full-Stack .NET Developer with over 10 years of hands-on experience designing, building, and supporting scalable enterprise and SaaS applications using **C#, .NET Core, ASP.NET Core, SQL Server, and Azure**. Proven track record of delivering secure, high-performance systems through **clean architecture, API design, caching strategies, and CI/CD automation**. Experienced working in **Agile environments**, collaborating closely with cross-functional teams to deliver reliable, maintainable solutions.

WORK EXPERIENCE

FULL STACK DEVELOPER ***Mar 2024 – Present***
SYLO BYTES – EDMONTON, ALBERTA

- Works hands-on across the full stack development cycle, building and maintaining applications using **.NET Core, Azure, React, and SQL**, with regular contributions to live production systems
- Built a **high-performance trading and analytics solution** in **C#/.NET Core** and **PostgreSQL**, integrating Python libraries through **Python.NET** to support data processing and automation needs
- Develops **scalable SaaS applications**, creating a modern **ReactJS frontend (functional components and hooks)** and a secured **.NET Core backend**, and continuously enhance features over time
- Set up and maintain **CI/CD pipelines in Azure DevOps**, automating builds, tests, and deployments and cutting deployment time by roughly **80%**
- Secures REST APIs using **JWT authentication** and adds caching to improve performance and reduce average response times
- Designs and supports **SQL Server data layer**, writing stored procedures, functions, and optimized queries to ensure reliability and performance
- Works closely with stakeholders and team members to clarify requirements, resolve production issues, and deliver stable, maintainable solutions

SENIOR MANAGER, INFORMATION SYSTEMS ***Jan 2018 – Oct. 2023***
STUDENTS LOAN TRUST FUND – ACCRA, GHANA

- Led the development of internal business applications using **.NET, .NET Core, HTML5, JavaScript**, and **SQL Server**, supporting multiple enterprise systems
- Designed and delivered key systems including the Student Loan Information System **(SLIS)** and Student Loan Application System **(SLAS)**, as well as REST APIs integrating internal platforms with external partners
- Developed **SLAS from the ground up**, supporting data for over **2 000 000 students** and contributing to a **40% increase in loan repayments**
- Applied **Agile development practices**, improving delivery speed by approximately **30%**
- Oversaw development of a **cross-platform mobile application** using **Flutter**, published to both **Google Play Store** and **Apple App Store**
- Led API integrations with external systems including **SSNIT, PayAngel, GhanaPay, Agricultural Development Bank, and Ghana.gov**
- Occassionally conducted code reviews and provided technical guidance to team members to maintain code quality and best practices

SOFTWARE DEVELOPER/ CONSULTANT ***May 2012 – Dec 2017***

RHEMA SYSTEMS & ASSOCIATES LTD – ACCRA, GHANA

- Involved in the Requirement gathering and all aspects of the Software Development Life Cycle for new applications to be developed
- Converted a Payroll application from Oracle forms to an ASP.NET Web Application for a modernized user experience and feature enhancement
- Developed an in-house POS system by building a REST API with C#, .NET and a front-end with HTML, bootstrap and Javascript currently being used by Tigo Ghana and Senegal
- Implemented and supported Microsoft Dynamics Retail Management System (RMS) in Tigo Ghana, Chad, Senegal, DRC and Rwanda
- Developed add-ons on RMS using Windows Forms with VB6 and Visual Basic.NET
- Developed a VB.Net application to move sales data from RMS to Sun Accounting System
- Implemented, supported and developed ad-ons for Microsoft Dymics Great Plains and Dynamics 365
- Developed a .Net application for inter store inventory transfer instead of using the feature that came with RMS
- Integrated RMS with the SIM activation system by consuming XML Web Services via SOAP
- Troubleshoot to resolve system issues and continuous improvement

EDUCATION

- Master of Science (MSc) in Information Technology, Sikkim Manipal University, India
- Bachelor of Science(BSc) in Computer Science, Kwame Nkrumah University of Science and Technology, Ghana

COMMUNITY LEADERSHIP

Vice President, .NET User Group, Edmonton

- Active leadership role in the local Edmonton developer community, organizing and promoting educational sessions focused on the latest developments in .NET Core, Azure, and C# best practices.
- Steps in to play the role of other executives in their absence

SKILLS

- **Core Languages & Frameworks:** C#, .NET, .NET Core, .Net Framework, LINQ, Entity Framework, Entity Framework Core, VB.Net, Python.Net, Windows PowerShell
- **Front-End & UI:** ReactJS, Blazor, ExtJS, HTML, CSS, AJAX, Windows Forms
- **Full Stack & Architecture:** REST API, SOAP, API security using JWT, Microservices architecture, N-Tier Architecture, Design Patterns, SOLID Principles, Object Oriented Principles, Dependency Injection
- **Databases & Tools:** MS SQL (T-SQL, Stored Procedures, Functions, Jobs, Triggers), SSIS, Postgres SQL, Entity Framework, Entity Framework Core Tools & Migrations, ADO.NET
- **DevOps & Testing:** Azure, Agile Development Methodology, CI/CD, Git, GitHub, Azure Repo, Unit Tests with xUnit and MS Test, Postman, Swagger, Serilog for logging
- **Reporting Tools:** Microsoft RDLC, Crystal Reports, PowerBI
- **Project Management:** Jira, Azure Boards, Kanban, Jenkins
- Excellent interpersonal and communication skills
- Solid analytical, problem-solving skills and decision making skills
